

SOTI CONNECT

TAKE CONTROL
OF YOUR IoT

“Things” are getting smarter and more connected. Printers, wearables, equipment, vehicles and much more are now providing organizations invaluable data and capabilities that were previously difficult, if not impossible to get. Enterprises are increasingly relying on IoT to improve their operational efficiency, safety and customer experience. However, maintenance costs and downtime of IoT devices can turn it from a revenue driver into a cost centre. SOTI’s IoT solution is built for the enterprise and provides complete lifecycle management of IoT devices within an organization, lowering the total cost of ownership (TCO) of their IoT devices and improving the return on investment (ROI) of their IoT initiatives.

IOT MANAGEMENT MADE EASY

SOTI Connect is an IoT solution built for business that provides complete lifecycle management of IoT devices within an organization. Its highly flexible, data-driven architecture means that new IoT devices can be quickly supported and managed, reducing the time-to-market for IoT initiatives. This first release of SOTI Connect focuses on the management and support of specialized printers used for business-critical tasks. Deploy your IoT solutions quickly, with total visibility, and increase uptime of IoT devices with SOTI Connect.

What SOTI Connect can do for your business

Manage your business-critical IoT

SOTI Connect addresses key IoT management challenges with remote support features that reduce device downtime and workflow disruptions.

- Remote support features provide instant access to IoT endpoints and allow organizations to immediately troubleshoot and resolves issues
- A data-driven architecture introduces support for new IoT devices without the need for software updates or written code
- Automation rules automatically issue alerts and actions when pre-defined conditions are met on the device, greatly reducing downtime of IoT solutions

Manage many IoT device types and protocols

SOTI Connect provides centralized, manufacturer-agnostic management of all IoT devices within an organization's technology infrastructure.

- Manage IoT devices regardless of communication protocol and choose the IoT solutions that best fit your business
- Reduce infrastructure and training requirements by consolidating multiple device management solutions into a single platform to manage your organization's mobility and IoT initiatives
- Reduce maintenance and resource costs with instant and remote configuration of device communications, settings and actions

Get your IoT devices deployed quickly and securely

SOTI Connect reduces the downtime of business-critical IoT solutions and improves time-to-market and security of new IoT devices.

- Harden the security of IoT devices with remote OS and app updates that patch vulnerabilities, secure access to corporate resources and configure security settings such as firewalls to prevent external agents from gaining unauthorized access to devices
- Quickly support new IoT devices and improve time-to-market for deploying IoT solutions and make it easy for IT administrators to provision new devices with little effort
- SOTI Connect can monitor the health status of devices and automatically notify IT administrators if there are device issues and often automatically remediate the issue by taking pre-configured actions

| DEVICE NAME | DEVICE TYPE | DEVICE FLAG | GROUP | PROTOCOL CATEGORY |
|--------------------------------------|-------------------------------------|-------------|---------|-------------------|
| 029613A0CE30A454-0881000000000000 | Brother R1-4200 Printer | Green | IoT | Adapter 0 |
| 12126470 | Sato Printer | Green | IoT | Adapter 0 |
| 1F2120744EE4A4A000F0000000000000 | Brother R1-2000 Printer | Green | IoT | Adapter 0 |
| 443081A1C170A00A0200000000000000 | Brother R1-2000 Printer | Green | IoT | Adapter 0 |
| 4028A000-0A70-4330-4000-000000000000 | Sharpdesk Printer | Green | IoT | Adapter 0 |
| AF101C1370F0A0A70A7000000000000000 | Brother TD-4000DN Printer (200 DPM) | Green | IoT | Adapter 0 |
| 8A6C00F10220A000A00000000000000000 | Brother R1-2000 Printer | Green | IoT | Adapter 0 |
| 000A00A07000C2A10F0000000000000000 | Brother R1-4200 Printer | Green | IoT | Adapter 0 |
| 000320207 | Sato Printer | Green | IoT | Adapter 0 |
| 000000000000 | HP-DesignJet 845C | Yellow | Printer | Adapter 0 |

SOTI ONE SIMPLIFIES YOUR BUSINESS MOBILITY

The **SOTI ONE Platform** is an integrated suite of solutions designed to reduce the cost, complexity and downtime related to business-critical mobility. Comprised of seven revolutionary products, the SOTI ONE Platform helps businesses remove functional silos, eliminate downtime, build apps faster, manage all mobile and IoT devices in one place and deliver actionable insights. When everything is connected, the SOTI ONE Platform makes mobile and IoT business operations simpler, smarter and more reliable.

Integration with the SOTI ONE Platform

Keeping up with the mobile-first shift within your industry can be a challenging task. The SOTI ONE Platform is designed to help. The SOTI ONE Platform is the first solution of its kind that integrates all the necessary components of Enterprise Mobility Management into one intuitive platform. It is designed to solve the core problems that organizations face in order to limit downtime, keep costs low, increase productivity and efficiency. Comprised of seven unique and revolutionary components, the SOTI ONE Platform is simpler, smarter and more reliable than any other solution.
